Staff Responsibility	Mr M Hale
Governor responsibility	Drew White

This document supported by the CLIC maths program providing teaching and consolidation of mental strategies for mathematics and the white rose small steps for teaching sequences. Weeks are a guideline and should be adapted for the needs of the children. Time for consolidation is designed for recapping of previous units to ensure learning is committed to the long-term memory. This can also be used to teach areas of misconceptions.

Mathematics Intent

At Teagues Bridge, our intention is **ambitious**. We aim to create strong mathematicians who have the necessary skills and understanding to tackle mathematical challenges in varying contexts, including the ability to reason and apply their knowledge to solving problems. This should mean that children are able to apply their knowledge to everyday life and can **aspire** to achieve anything that they want. We want our pupils to have strong mental manipulation and to use written strategies when appropriate.

Our philosophy for mathematics is replacing an idea that maths is lots of rules and numbers with a study of patterns and connected ideas. In early years they will build a foundation of number understanding and representation through mainly concrete and pictorial representations. The approach will be supported by in depth questioning, throughout the school to develop mastery.

Use of CPA is encouraged to ensure the curriculum is accessible for all children and that they all have the **opportunity** and are able to demonstrate their understanding in a variety of ways. This will enable them to have a good understanding of maths and not just the ability to follow a procedure. We want to **empower** them to want to ask questions and want to find the answers.

Aims: The national curriculum for mathematics aims to ensure that all pupils:

- become fluent in the fundamentals of mathematics, including through varied and frequent practice with increasingly complex problems over time, so that pupils develop conceptual understanding and the ability to recall and apply knowledge rapidly and accurately.
- reason mathematically by following a line of enquiry, conjecturing relationships and generalisations, and developing an argument, justification or proof using mathematical language
- can solve problems by applying their mathematics to a variety of routine and nonroutine problems with increasing sophistication, including breaking down problems into a series of simpler steps and persevering in seeking solutions.

Mathematics is an interconnected subject in which pupils need to be able to move fluently between representations of mathematical ideas. The programmes of study are, by necessity, organised into apparently distinct domains, but pupils should make rich connections across mathematical ideas to develop fluency, mathematical reasoning and competence in solving increasingly sophisticated problems. They should also apply their mathematical knowledge to science and other subjects.

The expectation is that the majority of pupils will move through the programmes of study at broadly the same pace. However, decisions about when to progress should always be based on the security of pupils' understanding and their readiness to progress to the next stage. Pupils who grasp concepts rapidly should be challenged through being offered rich and sophisticated problems before any acceleration through new content. Those who are not sufficiently fluent with earlier material should consolidate their understanding, including through additional practice, before moving on.

Our lessons are structured to enable all children to achieve and have an **opportunity** to make progress with their learning. Each lesson begins with a **CLIC maths** activity, where they have chance to develop their mental strategies, secure number facts and number manipulation. They then **develop** their mathematical fluency with the teacher modelling and explaining before they have a go themselves. Children then have a **reasoning/ problem solving** activity which is a variation of the previous work to demonstrate they have mastered the objective. Children who are ready can then **challenge** themselves with a task that requires applying the learning to a greater depth. We have our own programme of study which is supported with schemes like White Rose to support.

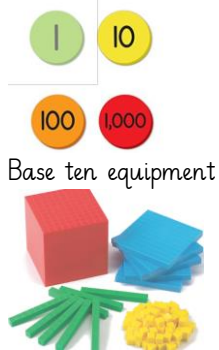

Year 2 – Yearly Overview

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12	Week 13	Week 14
Autumn	Number and place value Counting, reading and writing numbers		Addition and subtraction Bonds, add/subtract ones and 3 one digit numbers			Multiplication and division – repeated addition of equal groups		Fractions: equal groups, halves and quarters			Measurement : Time		Measurement: Money	
Spring	Number and place value : estimating, counting and comparing		Addition and subtraction adding/ subtracting across 10 Adding/ subtracting 2 digit numbers			Multiplication: arrays and groupings		Geometry: Shape		Fractions: Unit and non unit fractions	Measurement: Length and height		Measurement: time	Money – calculating
Summer	Number and place value: partitioning and rearranging		Addition and subtraction Mixed add/ subtract, comparing/ missing numbers		Multiplication and division – Times tables facts and the inverse.		Statistics		Measurement: Mass, capacity and temperature		Fractions: three quarters		Geometry: position and direction	

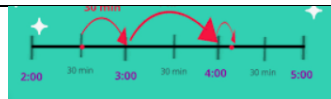

Year 2: Autumn term

National curriculum objectives	Prior knowledge from year 1	Learning outcomes (including WR steps)	Mathematical aspect	Vocabulary	Manipulatives	Problem solving resources
<ul style="list-style-type: none"> To recognise the place value of each digit in a two-digit number (tens, ones). 	<p>Consolidation (Step one)</p> <p>Knows the base ten values of two digit numbers</p> <p>Knows that 1 ten is ten ones as a base ten value.</p> <p>Knows how the teen numbers are built.</p>	<p>Steps 2 – 5 and 7</p> <p>LO I know to count objects in 10's to make 100.</p> <p>LO I know how to recognise 10's and 1's</p> <p>LO I know the value of tens and ones</p> <p>LO I know partitioning numbers to 100.</p> <p>LO I know partitioning numbers to 100 in different ways.</p>	<p>Maths resources for teachers White Rose Maths</p> <p>Number and place value: counting, reading and writing 2-digit numbers.</p>	<p>tens</p> <p>ones</p> <p>place value grid</p> <p>partition</p>	<p>Place value counters</p>  <p>Place value charts</p>  <p>Base ten equipment</p>  <p>Numicon</p> 	<p>Counting in steps and recognising the value of each digit.</p> <p>Buzzy Bee *</p> <p>Five Steps to 50 * </p> <p>Snail One Hundred * G</p> <p>Two-digit Targets *</p> <p>6 Beads **</p>

<ul style="list-style-type: none"> To read and write numbers to at least 100 in numerals and in words. 	<p>Know how to count, read and write numbers to 10 in numerals and words</p>	<p>Steps 6 and 8</p> <p>LO I know to write numbers to 100 in words</p> <p>Lo I know to write numbers to 100 in expanded form</p>	<p>Maths resources for teachers White Rose Maths</p> <p>Number and place value: counting, reading and writing 2-digit numbers</p>	<p>units tens</p>	<p>Place value counters</p> 	
<ul style="list-style-type: none"> To identify, represent and estimate numbers using different representations, including the number line 	<p>Know to identify and represent numbers using objects and pictorial representations including the number line</p>	<p>Steps 9 and 10.</p> <p>LO: I know to show 10's on a number line to 100</p> <p>LO: I know to show any 2 digit number on a number line</p>	<p>Maths resources for teachers White Rose Maths</p> <p>Number and place value: counting, reading and writing 2-digit numbers</p>	<p>units tens number line position estimate</p>	<p>Number lines</p> 	<p>Number lines is disguise</p>
<ul style="list-style-type: none"> To recall and use addition and subtraction facts to 20 fluently and derive and use related facts up to 100. 	<p>Step one – consolidation : bonds to 10.</p> <p>Knows that addition makes a larger total.</p> <p>Knows that</p>	<p>Steps 2- 6</p> <p>Lo I know fact families – addition bonds within 20</p>	<p>Maths resources for teachers White Rose Maths</p> <p>Addition and subtraction</p>	<p>total tens ones subtract difference bar model represent</p>	<p>Place value charts</p>  <p>Place value counters</p>	<p>Sitting Round the Party Tables * </p> <p>Two Spinners * </p> <p>Half Time *</p> <p>Heads and Feet **</p> <p>Noah **</p>

<ul style="list-style-type: none"> To add 3 one digit numbers 	<p>subtraction reduces the amount.</p> <p>Knows how to count on to find totals to 20.</p> <p>Knows fact families to 10 then 20.</p>	<p>LO I know fact families – subtraction within 20</p> <p>LO I know how facts to 10 and facts to 100 are related</p> <p>Lo I know bonds to 100</p> <p>Lo I know adding by making 10</p>			 <p>Base ten equipment</p>	<p>Eggs in Baskets **</p> <p>Birthday Cakes **</p> <p>Getting the Balance *** </p>
<ul style="list-style-type: none"> To calculate mathematical statements for multiplication and division within the multiplication tables and write them using multiplication, division and equals signs. 	<p>Knows how to count to 100 in 1s, 2s, 10s and 5s</p>	<p>Steps 1 to 5</p> <p>LO I know recognising equal groups</p> <p>LO I know making equal groups</p> <p>Lo I know adding equal groups</p> <p>Lo I know using the multiplication symbol</p> <p>Lo I know writing multiplication sentences</p>	<p>Maths resources for teachers White Rose Maths</p> <p>Multiplication and division</p>	<p>equal groups</p> <p>multiplication (×)</p> <p>times-table</p> <p>times</p>	<p>Numicon</p>  <p>Multilink</p> 	<p>Our Numbers * G</p> <p>Ip Dip * </p> <p>Magic Plant **</p>
<ul style="list-style-type: none"> To write simple fractions for example, 1/2 of 	<p>To know finding halves and quarters.</p>	<p>Steps 1 to 6</p>	<p>Maths resources for teachers </p>	<p>half (1/2)</p> <p>quarter (1/4)</p> <p>whole</p>	<p>Fraction tiles</p>	<p>Halving ** </p> <p>Happy Halving ***</p>

<p>6 = 3 and recognise the equivalence of two quarters and one half.</p>		<p>LO I Know parts and a whole</p> <p>Lo I know equal and unequal parts</p> <p>Lo I know recognising a half</p> <p>Lo I know finding a half</p> <p>Lo I know recognising quarters</p> <p>Lo I know finding a quarter</p>	<p>White Rose Maths</p> <p>Fractions: equal groups, halves and quarters</p>	<p>equivalent equal parts numerator denominator fraction bar unit fraction</p>	 <p>Cuisenaire rods</p>  <p>Fractions circles</p>  <p>Numicon</p>	
<ul style="list-style-type: none"> To tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times. 	<p>Know that time passes in cycles.</p> <p>Knows how to read the time to the 5-minute interval.</p>	<p>Steps 1 to 5</p> <p>Lo I know O'clock and half past</p> <p>Lo I know quarter past and quarter to</p>	<p>Maths resources for teachers White Rose Maths</p> <p>Telling the time to the nearest 5 minutes</p>	<p>o'clock half past quarter past quarter to minute hand hour hand duration</p>	<p>Clocks</p>  <p>Numberlines for counting time</p>	<p>Stop the Clock *** G</p> <p>Matching Time * G</p>

		<p>Lo I know to tell the time past the hour</p> <p>Lo I know to tell the time to the next hour</p> <p>lo I know to tell the time to the nearest 5 minutes</p>			 <p>Digital display clocks</p> 	
<ul style="list-style-type: none"> To recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value To find different combinations of coins that equal the same amounts of money 	<p>Knows how to find totals and equivalent amounts in money using notes and coins.</p> <p>Knows how to find change in the context of money.</p>	<p>Steps 1 to 5 and 7</p> <p>Lo I know to count money in pence</p> <p>Lo I know to count money in pounds (notes and coins</p> <p>Lo I know to count money in pounds and pence</p> <p>Lo I know how to chose coins and notes to make amounts</p>	<p>Maths resources for teachers White Rose Maths</p> <p>Money : coins and notes</p>	<p>pounds</p> <p>pence</p> <p>change</p> <p>total</p> <p>notes</p> <p>coins</p>	<p>Coins and notes</p> 	<p>Money Bags **</p> <p>Five Coins ** </p> <p>The Puzzling Sweet Shop **</p>

		<p>Lo I know different combinations can total the same amount</p> <p>Lo I know to compare different amounts of money</p> <p>Lo I know how to calculate with money</p> <p>Lo I know to make a pound</p> <p>Lo I know to find change from different amounts</p> <p>Lo I know to solve 2 step money problems</p>
